Naotora is my favourite character from samurai warriors series she create some funny moments with her awkwardness,she is clumsy and got a apologetic personality im glad that she kept that personality in DoA too and it sounds so much better with the english voice over which she lacked in SW

she is very fast and have nice move sets, i find her a bit OP on the offensive but if you are not careful with her you leave yourself open to more attacks compared to some of the other characters.

But atleast her combos are not as complex as ayane or phase 4 or etc...

She also appears to be a bit weak on the defensive, i feel like she doesnt punish the opponent enough with her counterattacks, which is propply just me not trained enough with her overall an easy character to learn and land different awesome combos

Price tag is great too, one of the few DLCs on PC that i find actualy worth paying, its not just costumes its something to learn and play.

You get bunch of free costumes from SW series with the character which is also great (unexpected from koei) she kept some of her signature moves too and...she is hot... so ... lets not forget the rubber duck... <.<. This is the only DLC worth paying for. Naotora is my waifu. video

https://voutu.be/rfTZNfS-zSg. Brand New edition to the Dead or Alive 5 Last Round family, Naotora Li is really fun character to play. New style moves. To knock your opponent of their feet, Yay! 2016 Awesome start.. Not bad, I'm not into all those games of Dynasty warriors with so many ultra cool designs bling bling guote marks. I don't mean they aren't cool but there's too much, and too much is a great way to kill interest. I love fist fighting and I love Splatterhouse and Fist of the Northstars 1 which am disapointed not to both have on Steam, I really enjoy the concept of beat them all strategy and checkpoints in this FOTN game and I didn't like to not have the original costume of Shin as I never plugged my Xbox360 online. Quite enjoyable move list so far in my tastes and yea default outfit is gorgeous and balanced in my tastes. Feels like adding a bit of Dynasty Warriors and games like that in DOA which without dropping the full box of sugar or salt in the cake which is appreciable in my opinion so far. I cannot judge on a competitive interest because of the bad online performances that this game seems to suffer from (or maybe my PC is not powerful enough). Good video games are like good cooking. Tastes and balance both matter. Taking the time to cook well is good. . Never played a Samurai Warriors game, but she is really fun to play with.

My only recomendation is to buy the \$12 bucks character pack, you get both the character and lots fo costumes!. Naotora li puts in a breath of fresh air in the game.

As a fan of several Dynasty\Samurai Warriors, its great to see a character like this added to the roster.

Naotora's moves consist of a mix of fast and slow attacks which make her a balanced character. Some moves have a starting position where you can bridge off of it to deal a different attack. While attacking, she is a very energetic character as she sometimes has a battle cry.

In the end, it's \$5.99 and you get a funky Naotora li that loves to apologize for beating the crap out of someone. Paired with the costume pack, you get Naotora in her best looks.. How cute, Naotora li apologizes for winning!

Oh and she is nice character to play that doesn't require too much skill to win matches:)

Played that kitten Natora Outfit for the first time - instant Boner 10V10

I like her playstyle even if her movelist isnt that complex, but it dosnt need to allways be complex, does it? She got some fun combo-moves and isnt that hard to play at all. As allready written i really like her optic as well - she got such a kawaii look. :3

The DLC is good, and way better then my english though. Definitely loved her the first time I saw her on the trailers, now I love her more now that I have the time to play and hang out with her~ <3 Gotta love her on those glasses~ <3 Thank you Tecmo Koei and Team Ninja for making all of this possible~ I love you guys!! <3. nice character fight a bit like Ayane but hands attacks are not that good also Welcome to 2016 no more unlockable, all characters are unlock or you need to pay for them, dam i miss unlockable characters in fight games also Dead or Alive 5 Last Round Online mode works now
